Education

- 2010–2014 **Computer Science**, *The College Of New Jersey*, Ewing New Jersey.
- Network Security
 - Programming Best Practices
 - Cloud Computing
 - Data Structures and Databases
 - Computer Architecture
 - Operating Systems

Experience

- 2010 **Student Project**, *FSP Scheduler*, Ewing New Jersey, *C++*.
In my Programming Best Practices class I created a scheduler used by my school to place freshmen into one of their three chosen Freshmen Seminar Classes. The scheduler kept class sizes consistent while placing students in their highest rated classes and replaced the manual process they used to schedule FSPs.
- 2010–2012 **Software Developer Intern**, *BC Processing*, Vineland New Jersey, *Ruby on Rails*.
This was my first technical job and I became familiar with Ruby, Rails, Javascript, and HTML. Prior to my first summer there I was not familiar with web development and I had never released any software. Three months later I had learned how to build and release whole Rails applications myself.
- Summer 2013 **Software Developer Intern**, *Amazon.com*, Seattle Washington, *Java*.

SKILLS

- Ruby, Ruby on Rails
- Unix tools (Git, Vim, Tmux, Bash)
- Java, Groovy
- Bash
- Python
- HTML, Javascript, CSS
- Amazon Web Services
- SQL
- C++
